

0.125 IN BLEED

0.5 IN SAFETY MARGIN

**LVM Spread: 16.5 in x 10.75 in**  
(+0.125 in bleed / 0.5 in safety margin)

All critical elements (including text and logos) should be inside the white 7.25 in x 9.75 in live area and not in the 0.5 in gray safety margin or bleed area.

Text and logos should **not crossover** the 1 in gutter as there is no guarantee of perfect alignment after printing and binding.

All background photos and images should extend to the 0.125 in bleed.

Color Settings = **CMYK SWOP2006\_Coated3v2.icc**

Effective Resolution = **300 ppi**

Maximum Total Ink Density = **300%**

All ads should be exported to **PDF/X-1a:2003** format.
